

Annual Report of Udaan Welfare Foundation - Year 2019-2020

“Challenges are great opportunities in disguise.”

The Covid-19 pandemic across the world has disrupted lives and challenged each one of us very differently. Our capability to be resilient and bounce back is being put to test in multiple areas. Our Human Spirit of Care, Consideration and Commitment is what helps us to fight off the invisible enemy with courage and might.

Thanks to contributions from large hearted Corporates, Philanthropists and Individuals - Udaan Welfare Foundation has successfully risen to the occasion. We have helped diverse groups of people and under-resourced public health institutions across Mumbai and Thane; and undertaken several relief initiatives in the areas of Food, Nutrition and Health over the last 8 months. We achieved a sense of satisfaction on supporting the needy in various ways.

Though our activities at Saksham Community Centre were disrupted until 14th December 2020, we continued to support our staff with honorariums during this period. Surely as expected, the donations reduced substantially for our ongoing activities, but we are sure we will bounce back with everyone's support.

Saksham Community Centre restarted its operations from 15th December, 2020 once the situation was under control.

Prior to the closure, the Saksham Community Centre completed five years. It continues to empower with health, knowledge, skills and guides the beneficiaries towards building health and confidence. This well-equipped community centre offers multi-speciality medical care, educational facilities including computer training, and skills training.

Saksham's success is purely due to the committed support of our sponsors, donors, doctors, staff, volunteers and well-wishers, plus the time, effort and resources put in by the Udaan team. We remain committed to keep improvising to help the community in all possible ways in the years to come inspite of the Covid-19 challenge we are currently facing.

Here are the highlights of Udaan's activities between April 2019 and December 2020.
